

How to Obtain Information about Providers

How can I find out about the professional qualifications of my provider?

Sendero has a large network of different types of health care practitioners to provide you with care and service. There is information about these practitioners in our directory. We tell you the name, address, telephone number and specialty of each practitioner in our network. If you would like more information about the professional qualifications of our practitioners, please call Customer Services at 1-855-526-7388. Customer Services will tell you the medical school attended, the residency completed, and the board certification status of any of our primary care practitioners and specialists.
